takeover^{with} *academicas!*

ACADEMICAS
WOMEN IN ACADEMIA

Catalina Ionita is an Architect and ongoing PhD researcher seeking to create an impact in her field. As the only student researcher in the Architecture department in her institution and the only woman Architect in the studio she works for, it is often overwhelming how loneliness can take over. As a very social and active person Catalina is, she finds the pandemic incredibly difficult.

This has motivated Catalina to start [@weareacademicas](#) as an attempt to connect those women out there who share the same feelings as she does.

The platform has been inspired from the Spanish 'Académicas', which is the plural and feminine of 'académico' which means academic. The English language does not have grammatical gender which frequently leads to preconceptions that a specific role can only be filled by a man. This is affecting women in the academic field all over the world who are still suffering from gender inequality and discrimination.

takeover with

hygiene for her!

Hygiene for Her originated while eating Hot Cheetos and watching Netflix! An offhand remark sparked an interest in the minds of Rachel Chalissey, Vibha Shivarajan, and Varsha Bharath to make a difference in our community.

Helping women when they're on their period and providing basic hygiene supplies is the purpose of this organization. Although periods aren't the best conversation starters, the injustice women face is something that cannot be ignored. The ultimate goal is to make feminine hygiene products such as pads and tampons free of cost and/or easily accessible to every woman from all walks of life. As a facet of life that unites all women, periods are essential to life and should be treated with the proper tools that allow women to live cleanly and with dignity. Unlike a blanket or sweater that embodies comfort, feminine hygiene products are necessities and should be considered as a basic amenity.

Help end period poverty by joining as a student representative or ambassador, donating to the cause, or checking out the official website (hygieneforher.org) and Instagram ([@hygieneforher](https://www.instagram.com/hygieneforher)). You can also email hygieneforher@gmail.com.
